We notice that Ottawa county people have fixed upon the same days for holding their fair as those chosen for Salina's district fair. We hope Saline and Ottawa counties can come to some agreement which will prevent the fairs from conflicting. Many Saline county people design attending the Ottawa fair and we have no doubt but that many Ottawa people design attending our district fair. The time being the same for both fairs these intentions cannot be carried out, and we hope to see a change made.

EUREKA MACHINE OIL, at OSCAR SEITZ'S.
Last Sunday evening the heaviest rain storm visited this vicinity that has been experienced for a number of years. The fall of rain is estimated at from 8 to 14 inches. The country is thoroughly drenched. Many cellars are "unusable"—being chock-full of water. During the storm there was terrific thunder and lightning. The shocks came thick and fast. The residence of Mr. Ed. Wittmann on Seventh street was struck. The chimney was badly cracked, plaster torn off and some other injury done, but luckily no one was hurt. The rain was much needed in this vicinity.

The Brookville correspondent of the Ellsworth Reporter, speaking of the 4th of July celebration in his town, discourses concerning one of our townsmen as follows:

Prof. Hamilton, from Salina, the orator of the day, was one of the finest addresses that I have listened to in a long time; beginning with the signing of the Declaration of Independence, and coming down to the present time, he brought up one after another the events, the men and women in whom Americans we glory, and in language beautiful and chaste, he pictured them to our mind like a grand panorama. The Prof. often had to wait while applauded, and when he sat down we were all hungry for more.

Slightly sarcastic was the clergyman who passed and addressed a man coming into church after the sermon had begun; with the remark: "Glad to see you, sir; always glad to see those here late who can't come early."

And decidedly self-possessed was the man thus addressed, in the presence of an astonished congregation, as he responded: "Thank you; would you favor me with the text?"

"Yes, sir. My text is found in the fact that the Estey Cottage Organ and the Mason & Hamlin Organ are two of the best organs in the market, and that the buying public have never acknowledged any other organ as "king," and that where they have been in direct competition the Burdett has given place to these organs in every instance; and that G. M. Eastman has sold more and better instruments than any other establishment in Central or Western Kansas."

Couple after couple approached the place of embarkation. They walked up bravely until they came to the obstacle. Then they became frightened. Brigade and division commanders did their best to preserve the order necessary in the presence of a foe. But it was useless. The couples could not be rallied. They fell back in disorder. However, even one brave man, by his presence of mind and heroic example, may wrest victory from defeat; may cause good order and discipline to come out of chaos and demoralization. Such was the case in the instance we are writing of.

A brave sergeant gallantly rushed up the foe, closed in on him, pluckily scraped him from his feet and tossed him over his shoulder. Then many a pale face lightened, and many a frightened bird breathed easier. All was happiness again; the couples reformed, and were ready and willing to fight their weights in wild cats.

A subscriber, writing from Kansas, Edgar county, Illinois, says: The corn crop in this section is almost a failure. We have had rain every day for over four weeks, and it has drowned out most everything. There was but a very small amount of wheat sown, but what grew at all is of good quality. The oats were badly damaged by rust, and the yield will be light. Some farmers are going to feed oats and straw together, as the oats are not good enough to pay for threshing. The hay crop is fine, and is being saved in good condition. Times are very hard here with the poorer classes. This poor corn crop will be very hard for the renting class, as many of them pay from \$3, \$5 and \$6 per acre cash rent, and in many cases the entire crop is not worth more than that. Hayes and Wheeler are the popular candidates.
